TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS.
 - **Frontend:** React, Next.js (App Router), Vue.js, Tailwind CSS, Material UI.
 - **Backend & Database:** Node.js, Express, PostgreSQL, MongoDB, Prisma, Supabase.
 - **Tools & Cloud:** Git/GitHub, Firebase (Auth/Firestore), Google Maps API, Mapbox, REST APIs.
-

FEATURED PROJECTS

HospitoFind | Full-Stack Developer | [Website](#)

React, Node.js, MongoDB, TypeScript, Google Maps AP

- **Global Infrastructure:** Scaled a regional hospital locator into a global directory covering 5 continents, implementing a bulk-import engine using Google Maps API.
- **AI Symptom Matching:** Integrated a conversational AI assistant that analyzes user symptoms through a chat interface to match them with specialized healthcare providers.
- **Data Verification:** Developed a community submission feature with a markdown editor and a multi-stage admin review workflow to manage 600+ healthcare facilities.

TrustBank | Software Engineer (Banking Simulation) | [Website](#)

Next.js, TypeScript, PostgreSQL, Supabase, Prisma, CSS Modules

- **Financial Ledger:** Built a simulated banking ecosystem featuring a "Movement Engine" for real-time transaction processing and a "Client Vault" for user asset tracking.
- **Administrative Oversight:** Created a centralized "Command Center" to manage mock branch data, global site configurations, and system-wide security settings.
- **Data Integrity:** Implemented a robust relational database schema using Prisma and Supabase optimized for high-performance financial queries in a sandboxed environment.

Machala Laundry Service | [Website](#)

React, SCSS, Firebase

- **Operations Dashboard:** Built a comprehensive administrative panel for the business owner to monitor daily operations, including total orders, revenue, and task status.
- **Storefront & Booking:** Developed a customer-facing web platform for browsing specialized laundry services (e.g., Dry Cleaning, Duvets) with an integrated booking system.
- **Customer Trust Layer:** Integrated a testimonial and star-rating system to automate the collection and display of verified customer feedback.

PROFESSIONAL - EXPERIENCE

Independent Software Engineer (Freelance / Technical Research) | *May 2024 – Present*

- Architecting and deploying full-stack applications with a focus on AI integration and secure database management.
- Consulting for local businesses on web performance, UI/UX optimization, and SEO.

AI Community Surfer | TELUS International (Remote) | *May 2022 – April 2024*

- Leveraged data-driven analysis to solve complex technical tasks with a consistent 90% accuracy rating.
- Collaborated in a diverse, global team to improve data integrity for AI models.

Group Leader (Contract) | Solpia Nigeria Limited | *March 2017 – May 2019*

Coordinated production schedules and resource allocation, resulting in a 44% increase in team productivity.

EDUCATION & CERTIFICATIONS

-
- **Diploma in Computer Software Engineering** | AltSchool Africa | 2023
 - **National Diploma in Science Laboratory Technology** | Lagos State Polytechnic | 2018
 - **Advanced CSS and Sass: Flexbox, Grid, Animations** | Udemy | 2022
